

FIRE ALARM SIGNALLING DEVICE

FIRE ALARM BELL

FEATURES :

- Vibrating
- 6" (150mm), 8" (200mm), 10" (250)mm Sizes
- Red Finish
- Rugged Compact Mechanism
- Heavy Duty Cast Housing
- Low Power Drain
- Wide Voltage Selection
- Indoor or Weather Proof Models

PG-6B (95dB)

DESCRIPTION :

PYRGARD Alarm Bells are specially designed for Fire Alarm Applications. The gongs are made of selected alloy steel to give the loud, resonant tones necessary in Fire Alarm Systems. Several gong sizes are available to overcome different ambient noise level.

The Alarm Vibrating bells are of underdome type with heavy-duty mechanisms. Each bell is supplied with a mounting plate that fits any standard single-gang opening.

For Weatherproof application **PYRGARD** offers an optional surface weatherproof back box. Refer to the specification chart for applicability and catalog number of the weatherproof back box.
